

## **TH79009E** BRAND

#### **PRODUCT HIGHLIGHTS**

- Strong performance west to east across region
- Good plant type across varying conditions
- · Great standability and IDC tolerance

# FIRST IN THE FIELD!

### **MATURITY & CHARACTERISTICS**

Maturity	00.9
Trait	Enlist E3
CHU	2525
Plant Height	M
Plant Type	Intermediate
Emergence	1.5
Standability	1.7
IDC	1.9
Flower Color	Р
Pod Color	LB
Hilum Color	BF
Pubescence Color	G

### **DISEASE & PEST TOLERANCE**

3	S
PRR gene	1c
PRR Field Tolerance	2.1
White Mold	2.2

To plant Enlist seed, you must have a limited license from Dow AgroSciences LLC (or other appropriate affiliates). In consideration of the foregoing, Dow AgroSciences grants to the Grower the limited license to use its technology to produce only a single commercial crop in the United States under the terms and conditions set forth in the Technology Use Agreement in effect at the time of planting of this seed.

Always read and follow herbicide label directions prior to use: EnitsI<sup>™</sup> products contain the Enlist trait that provides crop safety for use of labeled over-the-top applications of glyphosate, glufosinate and 2,4-D herbicides featuring Colex-D® technology when applied according to label directions. Following burndown, the only 2,4-D containing herbicide products that may be used with Enlist<sup>™</sup> crops are products that feature Colex-D technology and are expressly labeled for use on Enlist crops. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist products.

Enlist E3<sup>TM</sup> soybeans were jointly developed by Dow AgroSciences LLC and MS Technologies, LLC. 69<sup>TM</sup> Enlist, Enlist E3, the Enlist E3 logo, and Colex-D are trademarks of The Dow Chemical Company ("Dow") or an affiliated company of Dow. Excellence Through Stewardship is a registered trademark of Excellence Through Stewardship.
