

Put Plants on the Fast Track to Higher Yields

HOMESTRETCH™ S by Meristem Crop Performance™ is a 5-0-0 formulation containing 5% sulfur and a full micronutrient package, including boron, manganese, molybdenum and zinc. It is ideal for in-season nutrient applications on row crops and is an *excellent* tank mix partner with fungicides and herbicides.

HOMESTRETCH™ S is approved for use with Enlist One® and Enlist Duo® herbicides.

For info, visit:

- Enlist.com/en/herbicides/approved-tank-mix.html

PRODUCT BENEFITS

- Ultimate tank mix formulation compatibility
- Maximum nutrient mobility and efficiency, allowing for a lower application rate per acre
- Low salt index and low impurities
- Contains a proprietary, high efficiency form of boron
- Healthier plants, stress mitigation, enhanced quality and yield
- At a value that just makes sense

PRODUCT AVAILABILITY

Products are available in both 2.5 gallon jugs and 250 gallon totes.

APPLICATION RECOMMENDATIONS

Apply 1-2 quarts per acre per application throughout the growing season. More frequent applications at 1 pint per acre may be needed to correct deficiencies once they occur.

HOMESTRETCH™ S ACTIVE INGREDIENTS

Guaranteed Analysis	5-0-0
Nitrogen (N)	5.00%
5.00% Urea Nitrogen	
Sulfur (S)	5.00%
Boron (B)	0.50%
Manganese (Mn)	1.50%
Molybdenum (Mo)	0.05%
Zinc (Zn)	1.50%

Derived from urea, sulfuric acid, boric acid, manganese sulfate, sodium molybdate and zinc sulfate.

AGRONOMIC BENEFITS

Sulfur: aids in protein and enzyme synthesis.

Boron: provides structural integrity and flexibility to the primary cell walls. It also improves vegetative and reproductive growth.

Manganese: aids in herbicide metabolism, chlorophyll formation and plant respiration. It is also critical to photosynthesis.

Molybdenum: promotes root nodulation growth and enhances nitrogen utilization.

Zinc: promotes root and shoot growth; helps plants withstand environmental stress.
